Sanskar Jain

Backend Software Engineer | AWS | PostgreSQL | Microservices
Hyderabad, Telangana, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Backend Software Engineer with **2+ years** of experience designing and delivering scalable, maintainable backend systems and REST APIs at Verisk Analytics. Hands-on with **PostgreSQL**, optimized SQL, and **AWS** serverless/event-driven services (**Lambda, S3, ECS, SQS, SNS**), backed by **CI/CD** pipelines, containerization, and infrastructure-as-code. Structured, delivery-oriented problem-solver who thrives in fast-paced **Agile** teams, with proven results cutting latency **83%**, serving **200K+ weekly API requests**, and halving deployment time.

Technical Skills

Languages: C#, Java, Python, TypeScript, SQL
Backend & Architecture: .NET 8, ASP.NET Core, Spring Boot, REST APIs, Microservices, Event-Driven Architecture, Serverless, CQRS, API Versioning, Idempotency, Retry/Backoff, Dead-Letter Queues
AWS: Lambda, S3, ECS, EKS, SQS, SNS, ElastiCache, CloudWatch, Kong API Gateway
Databases & SQL: PostgreSQL, MongoDB, MySQL, Elasticsearch, Query Optimization, Indexing, Schema Design, Database Migrations
DevOps & Infrastructure as Code: Docker, Kubernetes, Terraform, CI/CD, Azure DevOps Pipelines, Git, Linux/CLI
Security & Identity: OAuth 2.0, OpenID Connect (OIDC), JWT, Okta, Role-Based Access Control (RBAC), Session Management
Messaging & Caching: Apache Kafka, Redis, Amazon ElastiCache
Observability & Testing: Splunk, OpenTelemetry, Serilog, Structured Logging, xUnit, NUnit, Unit/Integration Testing, Agile/Scrum, Code Review, Swagger/OpenAPI

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Co-designed **RulesRunner**, a stateless microservice using **CQRS** and **AWS SQS** that offloaded compliance checks from the client, reducing wait time from **3000ms to 500ms (83% improvement)**; architected fault-tolerant **event-driven**, **serverless** pipelines with idempotent processing, retry/backoff, and **AWS Lambda** consumers, sustaining **500+ messages daily** with zero loss.
- Engineered a scalable backend for **Xactimate's** import/export of **30+ data types** using asynchronous processing, **Amazon S3** presigned URLs, and **MongoDB**, reducing transfer time by **38%**.
- Built **ASP.NET Core** REST APIs serving **200K+ weekly requests** with structured error handling, model validation, and **Swagger/OpenAPI** documentation; implemented **URL-based API versioning** across **16 v2 endpoints** for backward compatibility.
- Established **OAuth 2.0** authentication on **AWS EKS** behind **Kong API Gateway** for **6 of 15+ platform services**, integrating **Okta**-issued **JWT** tokens for secure cross-service authorization.
- Improved API response time by **34%** through **Redis**/**Amazon ElastiCache** caching and query optimization, and optimized **database indexing** across **PostgreSQL**/**MongoDB**, writing optimized SQL and applying **Elasticsearch** to cut search latency on high-volume datasets.
- Slashed deployment time by **50%** and build cycles by **33%** by overhauling **CI/CD** pipelines with staged gates, parallel jobs, and automated testing across **Azure DevOps**.
- Investigated **Sev-2/Sev-3** production incidents through **Splunk** log analysis, and instrumented the application with **OpenTelemetry** via **Serilog** for unified structured logging.
- Wrote unit and integration tests using **xUnit**/**NUnit** to reach **90% code coverage**, and participated in structured **code reviews** covering architecture, edge cases, and production readiness.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Production Platform Jul 2026 -- Present
Live: sanskar-engineers-payroll-ui.onrender.com

- Shipped a multi-tenant **SaaS** to production, now serving **15+ client organizations**, built end-to-end as sole engineer on **Spring Boot 4** (**Java 17**), **React 18** + **TypeScript**, and **PostgreSQL**, containerized with **Docker**; enforced tenant isolation via a shared-schema `org_id` discriminator and **Hibernate** filters, with **Spring Security JWT** auth and **RBAC** across **3 roles**.

Certifications

AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024

Education

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
