Sanskar Jain

Backend Software Engineer | Java & Spring Boot | Elasticsearch & MongoDB | Event-Driven Pipelines | AWS EKS | Hyderabad, India

+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Backend engineer with **2+ years** building high-throughput **Java/Spring Boot** services, **REST APIs**, and asynchronous **ingestion pipelines** that move large volumes of data through **S3**, **MongoDB**, and **Elasticsearch**, with event-driven processing on **AWS EKS**. Applies **LLM agents** and AI coding tools to cut manual toil, mentors junior engineers, and works closely with cross-functional teams on requirements and trade-offs.

Technical Skills

Languages: Java 17, Java 8+, C#, Python, SQL, JavaScript, TypeScript
Backend & APIs: Spring Boot, Spring Security, Spring Data JPA/Hibernate, REST API Design, High-Throughput APIs, API Versioning, GraphQL, Swagger/OpenAPI
Ingestion & Event-Driven: Asynchronous Processing Pipelines, Apache Kafka, AWS SQS/SNS, AWS Lambda, Presigned URLs, Idempotency, Retry/Backoff, Dead-Letter Queues, CQRS
Search & Data Stores: Elasticsearch, MongoDB, PostgreSQL, MySQL, Redis, Metadata and Schema Modeling, Indexing, Query Optimization, Data Migrations
Cloud & Containers: AWS (EKS, EC2, S3, Lambda, ElastiCache), Docker, Kubernetes, Terraform, CDKTF, CI/CD, Azure DevOps Pipelines, Git
AI & Practices: LLM Agents (OpenAI API), Agentic Workflows, MCP (Model Context Protocol) Servers: Atlassian, Splunk, Dynatrace, Prompt Engineering, Claude Code, GitHub Copilot, Technical Design Documents, Mentoring, Code Review, Agile/Scrum

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Engineered a scalable import/export backend for **Xactimate** covering **30+ data types**, using asynchronous processing, **Amazon S3** presigned URLs, and **MongoDB** to cut transfer time by **38%** and customer-reported issues by **25%**.
- Co-designed **RulesRunner**, a stateless **Java 17/Spring Boot** policy-enforcement microservice using **CQRS** and **AWS SQS** to run compliance checks off the client path, cutting wait time from **3000ms to 500ms (83%)**.
- Architected fault-tolerant **event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent processing, retry/backoff, and dead-letter queues, sustaining **500+ messages daily** with zero message loss.
- Built production **REST** and **GraphQL** APIs serving **200K+ weekly requests**, with **16 v2 endpoints** versioned for backward compatibility across upstream and downstream consumers.
- Tuned **MongoDB** and **PostgreSQL** indexes, applied **Elasticsearch** to cut search query latency on high-volume datasets, and added **Redis** caching for a **34%** faster API response time.
- Operated services on **AWS EKS** and **EC2** across **eu-west-1** and **us-west-2**, provisioned production applications with **Terraform CDK (CDKTF)**, and overhauled **Azure DevOps CI/CD**, slashing deployment time by **50%**.
- Built an **OpenAI API** agent with prompt engineering and custom orchestration that auto-routes **30--50 Jira tickets per week**, worked with **MCP** servers (**Atlassian**, **Splunk**, **Dynatrace**), and use **Claude Code** and **GitHub Copilot** daily, reviewing all generated code before merge.
- Mentored **4 junior engineers** and authored technical design documents for service boundaries and API contracts, and reached **90% code coverage** with unit and integration tests.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Platform (Java 17, Spring Boot, PostgreSQL, React) Jul 2026 -- Present

- Shipped a multi-tenant **SaaS** to production as sole engineer, serving **15+ client organizations**, with **Hibernate**-enforced tenant isolation, **Spring Security** with **JWT** and role-based access, and **Docker** deployment.

Expense Tracker -- Distributed Microservices Application (Java, Spring Boot, Kafka) Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with asynchronous **Apache Kafka** messaging and **PostgreSQL**, containerized with **Docker**, orchestrated on **Kubernetes**, and load-tested with **1000+ transactions**.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
