Sanskar Jain

Software Engineer | C#, ASP.NET Core, MVC, .NET 8 | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Software Engineer with **2+ years** of hands-on **ASP.NET** development at Verisk Analytics on the Xactimate import/export platform. Day-to-day work covers **ASP.NET Core Web API** services on **.NET 8**, legacy **ASP.NET MVC** applications, and the **Azure DevOps** and **Git** workflow around them, from design document through production support.

Technical Skills

Languages & Web: C#, SQL, TypeScript, HTML, CSS, XML
ASP.NET & Backend: .NET 8, ASP.NET Core, ASP.NET MVC, ASP.NET Web API 2, .NET Framework, Entity Framework, REST APIs, Swagger/OpenAPI, CQRS
Frontend: React 18, TypeScript, HTML, CSS
Engineering Tools: Azure DevOps, Git, Jira, Docker, CI/CD, Code Review
Data & Caching: PostgreSQL, MongoDB, Redis, Query Optimization, Indexing
Security & Cloud: OAuth 2.0, OpenID Connect, JWT, Okta, AWS (EKS, SQS)
Testing & Practices: xUnit, NUnit, TDD, Unit/Integration Testing, Dependency Injection, LINQ, SOLID, Multithreading, Agile/Scrum, AI-Assisted Development (Claude Code, GitHub Copilot)

Professional Experience

Verisk Analytics Hyderabad, India
Software Engineer II Apr 2026 -- Present
Software Engineer I Jul 2024 -- Mar 2026

- Built **ASP.NET Core Web API** services on **.NET 8** with **Entity Framework** and **SQL** persistence, handling **∼200K requests a week**, with **URL-based versioning** across **16 v2 endpoints** and **Swagger/OpenAPI** docs.
- Applied **dependency injection**, **LINQ**, and **SOLID** principles with a **TDD** approach across the **ASP.NET Core** services, keeping business logic testable and easy to review.
- Migrated legacy **.NET Framework** services (**ASP.NET MVC**, **Web API 2**) to **.NET 8**, wrote **2 migration scripts** moving **1M+ records** each, and handled **XML** parsing in **C#**.
- Co-designed **RulesRunner**, a stateless **C#** microservice using **CQRS** and an **AWS SQS**-backed worker that cut user wait time from about **3 s to 0.5 s**; authored the design docs for service boundaries and API contracts.
- Rolled out **OAuth 2.0** with **Okta**-issued **JWT**s on **AWS EKS** for **6 of 15+** services, and moved **4 client applications** from **Forms Authentication** to **JWT** bearer auth over a shared **Redis** session store with token revocation.
- Implemented **Okta Event Hook**--driven logout propagation across 4 tenants with an idempotent webhook receiver and a reconciliation poller for missed events.
- Designed event-driven pipelines on **AWS SQS**, **SNS**, and **Lambda** with idempotent consumers, retry/backoff, and dead-letter queues, processing about **500 messages a day** in **eu-west-1** and **us-west-2**.
- Reworked **Azure DevOps CI/CD** pipelines with staged gates and parallel jobs, roughly halving deployment time, and reviewed code across multiple scrum teams through **Git** pull requests.
- Tuned hot endpoints through **Redis** caching, connection pooling, and **indexing** on **MongoDB** and **PostgreSQL**, reducing response times by **∼34%**.
- Diagnosed **multithreading** and concurrency defects in **C#** and supported production issues in a biweekly **Agile/Scrum** release cycle; wrote **xUnit**/**NUnit** tests reaching **90% coverage** and mentored **4 junior engineers**.
- Wrote a **Python** agent on the OpenAI API that drafts and routes **30--50 Jira** tickets a week; use **Claude Code** and **GitHub Copilot** daily, reviewing all generated code before merge.

Software Engineering Intern Jan 2024 -- Jun 2024

Projects

Attendance & Payroll SaaS (sole developer) Jul 2026 -- Present

- Shipped a multi-tenant payroll and attendance product used by **15+ small businesses**, pairing a **TypeScript**/**React 18** UI with a **REST** API, **PostgreSQL**, **JWT** auth with role-based access, and **Docker** deployment.

Expense Tracker -- Microservices Application Aug -- Dec 2023

- Created **5 REST** microservices with a **HTML**/**CSS**/**JavaScript** front end of **9+** reusable components.

Education & Certifications

B.Tech in Computer Engineering, Vishwakarma Institute of Technology, Pune 2020 -- 2024 | CGPA 8.8/10
AWS Certified Cloud Practitioner, Amazon Web Services Oct 2024
