Sanskar Jain

Full Stack Software Engineer | C# & .NET Core | React & TypeScript | Hyderabad, Telangana, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Full Stack Software Engineer with **2+ years** building enterprise **C#/.NET 8** applications and **API-driven** platforms, with **React/TypeScript** frontends, contributing across **technical design**, **REST API development**, and testing. Improved performance and reliability at scale (**83%** latency cut, **200K+ weekly requests**, **34%** faster APIs) using **Azure DevOps CI/CD** in **Agile** teams. Quick learner who supports production platforms and takes on growing ownership.

Technical Skills

Back End: C#, .NET 8, .NET Core, ASP.NET Core, ASP.NET MVC, Web API 2, REST APIs, Microservices, API Versioning, Swagger/OpenAPI
Front End: React 18, TypeScript, JavaScript, HTML5, CSS, Vite, Axios, TanStack React Query
DevOps: CI/CD Pipelines, Azure DevOps, Git, Docker, Kubernetes, Terraform
Cloud: AWS (Lambda, S3, SQS, SNS, EKS, EC2), Serverless and Event-Driven Design
Database: SQL Server, T-SQL, PostgreSQL, MySQL, MongoDB, Schema Design, Query Optimization, Indexing, Database Migrations
Practices: Technical Design Documentation, xUnit/NUnit Unit and Integration Testing, Debugging, Performance Tuning, Code Review, Agile/Scrum, Production Support, AI-Assisted Development (GitHub Copilot, Claude Code)

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Built **ASP.NET Core REST APIs** in **C#** serving **200K+ weekly requests** with model validation, structured error handling, **Swagger/OpenAPI** docs, and **URL-based versioning** across **16 v2 endpoints**, enabling API-driven integration for enterprise clients.
- Co-designed **RulesRunner**, a stateless **.NET** microservice using **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)**, and authored the technical design for service boundaries, API contracts, and error handling.
- Migrated legacy **.NET Framework** services (**ASP.NET MVC**, **Web API 2**) to **.NET 8** with async/await, cutting technical debt by **55%** and improving runtime performance by **30%**.
- Improved scalability and reliability by adding **Redis** caching (**34%** faster API responses), tuning database indexes and queries, and architecting fault-tolerant event-driven pipelines on **AWS Lambda/SQS** that sustain **500+ messages daily** with zero message loss.
- Engineered a backend for **Xactimate** import/export of **30+ data types** using async processing and **S3**, reducing transfer time by **38%** and customer-reported issues by **25%**; shipped **2 idempotent migration scripts** moving **1M+ records each**.
- Overhauled **Azure DevOps CI/CD** pipelines with staged gates, parallel jobs, and automated testing for **biweekly releases**, slashing deployment time by **50%** and build cycles by **33%**.
- Wrote **xUnit/NUnit** unit and integration tests reaching **90% code coverage**, debugged production issues during **production support 2--3 times per year**, and **mentored 4 junior engineers** through code reviews.
- Deployed **OAuth 2.0** behind **Kong API Gateway** on **AWS EKS** for **6 of 15+ platform services**, and adopted **GitHub Copilot** and **Claude Code** daily, reviewing all generated code before merge.

Projects

Attendance & Payroll SaaS -- Full-Stack Platform (React 18, TypeScript, Spring Boot, PostgreSQL) Jul 2026 -- Present

- Built and operate a production **SaaS** for **15+ client organizations** as sole engineer, with a **React 18/TypeScript** frontend, **REST APIs**, **PostgreSQL** schema design, **JWT** security, and a business-rule payroll engine.

Expense Tracker -- Microservices Application (Java, Spring Boot, Kafka, React) Aug 2023 -- Dec 2023

- Developed **5+** microservices with **Kafka** and **PostgreSQL**, plus a **React** frontend of **9+** components in **JavaScript**, **HTML**, and **CSS**; containerized with **Docker**.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
