Sanskar Jain

Software Engineer | C#, ASP.NET Web API, .NET Core, SQL | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Software Engineer with **2+ years** of strong **C#** and **ASP.NET** programming at Verisk Analytics, building production **Web API** services on **.NET Core/.NET 8** with **Entity Framework**, **SQL**-backed persistence, and **TypeScript/JavaScript** UI experience. Quality-driven engineer who contributes design, architecture, and implementation details during backlog grooming, writes highly testable code (**90% coverage**), and uses debugging, profiling, and query optimization to resolve production issues.

Technical Skills

Languages & Web: C#, TypeScript, JavaScript, HTML, CSS, SQL
Backend & Frameworks: .NET 8, .NET Core, ASP.NET Core, ASP.NET MVC, ASP.NET Web API 2, Entity Framework, REST APIs, CQRS
Frontend: TypeScript, JavaScript, React 18, HTML, CSS, Component-Based UI
Databases: PostgreSQL, MongoDB, Query Optimization, Indexing, Database Migrations
Debugging & Performance: Troubleshooting, Root Cause Analysis, Performance Profiling & Optimization, Multithreading (Tasks, Locks), OpenTelemetry, Redis Caching
Cloud, Security & DevOps: Azure DevOps, AWS (EKS, SQS), Docker, CI/CD, OAuth 2.0, OpenID Connect, JWT, Okta, Git
Testing & Practices: xUnit, NUnit, Unit/Integration Testing, Swagger/OpenAPI, Agile/Scrum, Code Review, Technical Design Documentation, AI-Assisted Development (Claude Code, GitHub Copilot)

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Developed **ASP.NET Core Web API** REST services backed by **Entity Framework** and **SQL**, serving **200K+ weekly requests**, with model validation, **URL-based versioning** across **16 v2 endpoints**, and **Swagger/OpenAPI** docs.
- Contributed design, architecture, and implementation details to backlog grooming, authoring technical designs for **RulesRunner**, a **C#** microservice using **CQRS** and **AWS SQS** that cut client wait time from **3000ms to 500ms (83%)**.
- Optimized performance by profiling slow queries and tuning **SQL**/**MongoDB** indexing, adding **Redis** caching and connection pooling to cut API response time **34%**, and integrating **OpenTelemetry** tracing into a production application.
- Debugged complex **multithreading** and concurrency defects in **C#** (Tasks, locks) and performed root-cause analysis on production incidents, supporting releases and on-call fixes in a biweekly **Agile/Scrum** cadence.
- Cut technical debt **55%** and improved runtime **30%** by migrating legacy **.NET Framework** (**ASP.NET MVC**, **Web API 2**) services to **.NET 8**, and wrote **2 migration scripts** moving **1M+ records** each with zero downtime.
- Established **OAuth 2.0**/**OpenID Connect** authentication on **AWS EKS** for **6 of 15+** services using **Okta JWT** tokens, and migrated **Forms Authentication** to **JWT** bearer auth over a **Redis** session store, shrinking the post-logout replay window from **7 days to under 1 second**.
- Drove quality via **xUnit**/**NUnit** unit and integration tests reaching **90% code coverage**, structured **Git**-based **code reviews** of AI-generated code from **Claude Code** and **GitHub Copilot**, and an **Azure DevOps CI/CD** overhaul that cut deployment time **50%**; mentored **4 junior engineers**.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Production Platform Jul 2026 -- Present

- Shipped a multi-tenant **SaaS** serving **15+ client organizations** as sole engineer, pairing a **TypeScript**/**React 18** UI with a **REST** API, **Hibernate**-mapped **PostgreSQL** schema, **JWT** security, role-based access control, and **Docker** deployment.

Expense Tracker -- Microservices Application Aug 2023 -- Dec 2023

- Built **5+ REST** microservices with **SQL**-backed persistence and a **JavaScript**/**HTML**/**CSS** UI of **9+** reusable components, validated with **1000+** simulated transactions.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
