Sanskar Jain

Software Engineer | C#/.NET, ASP.NET MVC & Web API | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Software Engineer with **2+ years** developing end-to-end web applications on the **Microsoft stack** -- **C#**, **ASP.NET Core MVC**, **Web API**, and **SQL**-backed services -- at Verisk Analytics, with production REST APIs built on **n-tier**, **SOLID**-driven architecture. Working knowledge of **TypeScript/JavaScript** UI layers, **OAuth 2.0/OpenID Connect** authentication, and **service-oriented**/microservices design, backed by structured code review and **Agile/Scrum** delivery. Strong communicator who converts business problems into technical designs, troubleshoots performance via query optimization, and writes clean, testable code validated by unit tests.

Technical Skills

Languages & Web: C#, TypeScript, JavaScript, HTML5, CSS3, SQL, T-SQL
Backend & Frameworks: .NET 8, .NET Framework, ASP.NET Core MVC, ASP.NET MVC, Web API 2, REST APIs, N-Tier Architecture, OOP, SOLID Principles, Design Patterns (Creational, Structural, Behavioral -- Factory, Repository, CQRS)
Databases: SQL Server, PostgreSQL, MySQL, MongoDB, T-SQL, Query Optimization, Database Design
Security & Identity: OAuth 2.0, OpenID Connect (OIDC), JWT, Okta, Role-Based Access Control, Session Management, Token Revocation
Architecture: Microservices, Service-Oriented Architecture (SOA), Event-Driven Architecture, CQRS
Dev Tools & Testing: Visual Studio, Azure DevOps (TFS), Git, xUnit, NUnit, Unit/Integration Testing, Swagger/OpenAPI, Postman
Practices: Agile/Scrum, Code Review (Raise, Resolve, Close), Technical Documentation, CI/CD, AI-Assisted Development (Claude Code, GitHub Copilot)

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Designed and delivered **ASP.NET Core MVC REST** APIs on an **n-tier** architecture serving **200K+ weekly requests**, with structured error handling, model validation, and **Swagger/OpenAPI** contracts.
- Built **RulesRunner**, a decoupled **C#** microservice applying **CQRS** and **SOLID**-driven design patterns to cut client wait time from **3000ms to 500ms (83%)** while enabling horizontal scaling.
- Established **OAuth 2.0/OpenID Connect** authentication on **AWS EKS** behind **Kong API Gateway** for **6 of 15+ service-oriented** platform services, integrating **Okta**-issued **JWT** tokens for cross-service authorization.
- Secured single sign-out across **4 client applications** by migrating legacy **Forms Authentication** to **JWT** bearer auth over a centralized **Redis** session store, adding dual-layer revocation that shrank the post-logout replay window from **7 days to under 1 second**.
- Raised, resolved, and closed **peer code reviews** while maintaining reference **technical documentation** and API contracts, enforcing clean, maintainable **.NET** codebases across the team.
- Cut technical debt **55%** and improved runtime **30%** migrating legacy **.NET Framework** (**ASP.NET MVC**, **Web API 2**) to **.NET 8**, and tuned **SQL**/**MongoDB** indexing plus **Redis** caching to cut API response time **34%**.
- Overhauled **CI/CD** pipelines in **Azure DevOps (TFS)** with staged gates and parallel jobs to cut deployment time **50%**, writing **xUnit/NUnit** tests to reach **90% code coverage** in **Agile/Scrum** delivery.

Projects

Expense Tracker -- Service-Oriented Microservices Application Aug 2023 -- Dec 2023
Java, Spring Boot, TypeScript, JavaScript, SQL, Docker

- Developed **5+** independently deployable, **n-tier** microservices with **REST/JSON** APIs, **SQL**-backed persistence, and a **TypeScript/JavaScript** UI of **9+** reusable components, routed through **Kong API Gateway**.
- Containerized services with **Docker**; simulated **1000+ transactions** end-to-end for load and resilience testing, and authored technical specifications covering data models and API contracts.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
