Sanskar Jain

Software Engineer | Java | Distributed Systems | Docker & Kubernetes | MongoDB & Redis | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Software Engineer with **2+ years** building highly scalable, resilient distributed services in **Java 17/Spring Boot** on **AWS** with **Docker**, **Kubernetes**, **MongoDB**, and **Redis**, owning key components from design specs through production quality and support. Solid foundation in **data structures and algorithms** (**500+ problems** solved), quick at mastering complex codebases, and uses **Claude Code** and **GitHub Copilot** daily to ship faster in short, iterative Agile cycles.

Technical Skills

Languages: Java 8+, Java 17, C#, Python, SQL, JavaScript, TypeScript
Distributed Systems: Microservices, Event-Driven Architecture, Idempotency, Retry/Backoff, Dead-Letter Queues, CQRS, Multithreading & Concurrency, Horizontal Scaling, Application Resiliency
Databases & Caching: MongoDB, Redis, PostgreSQL, MySQL, Elasticsearch, Indexing, Query Optimization, Apache Kafka, AWS SQS/SNS
Cloud & DevOps: AWS (EKS, ECS, EC2, Lambda, S3), Docker, Kubernetes, Terraform, CDKTF, CI/CD, Azure DevOps Pipelines, Git
Backend & Frameworks: Spring Boot, Spring Security, Spring Data JPA/Hibernate, REST APIs, GraphQL, OAuth 2.0, JWT, OpenTelemetry
Practices & Tools: Data Structures & Algorithms, System Design, Design Documentation, Code Review, Unit/Integration Testing, Agile/Scrum, AI-Assisted Development (Claude Code, GitHub Copilot), React

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Co-designed **RulesRunner**, a stateless **Java 17/Spring Boot** microservice using **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)** and enabling horizontal scaling.
- Authored technical design documentation defining service boundaries, API contracts, dead-letter queue handling, and event-publishing patterns, and conducted peer reviews of designs and code for architecture, edge cases, and production readiness.
- Architected fault-tolerant **distributed event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent processing and retry/backoff, sustaining **500+ messages daily** with zero message loss under failure conditions.
- Built **Spring Boot REST** and **GraphQL** APIs, serving **200K+ weekly requests**, and resolved concurrency issues in multithreaded services through careful locking and task design.
- Diagnosed performance problems by analyzing slow queries and tracing with **OpenTelemetry**, tuning **MongoDB/PostgreSQL** indexes and adding **Redis** caching to cut API response time by **34%**, and resolved production incidents **2--3 times per year**.
- Ran services on **AWS EKS** and **EC2**, deployed multiple applications to **AWS** production as code with **Terraform CDK (CDKTF)**, and overhauled **Azure DevOps CI/CD** pipelines, slashing deployment time by **50%**.
- Secured services with **OAuth 2.0** behind **Kong API Gateway** on **AWS EKS** for **6 of 15+ platform services**, and owned quality with unit and integration tests reaching **90% code coverage**.
- Used **Claude Code** and **GitHub Copilot** daily for implementation, debugging, and refactoring, reviewing all generated code before merge, and built an internal **OpenAI API** agent that auto-routes **30--50 Jira tickets per week**.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Platform (Java 17, Spring Boot, PostgreSQL, React) Jul 2026 -- Present

- Shipped and operate a multi-tenant **SaaS** in production as sole engineer, serving **15+ client organizations**, owning product design, backend, **React/TypeScript** frontend, **Docker** deployment, and support in a fast-moving, unstructured environment.

Expense Tracker -- Distributed Microservices Application (Java, Spring Boot, Kafka) Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with asynchronous **Apache Kafka** messaging and **PostgreSQL**, containerized with **Docker**, orchestrated on **Kubernetes**, and load-tested with **1000+ transactions**.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
