# Sanskar Jain

Backend Software Engineer | C#, Python, Java, TypeScript | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

## Professional Summary

Backend engineer with **2+ years** at Verisk Analytics building production **REST** APIs and **microservices** on **.NET 8** and **AWS**, with a focus on debugging, performance tuning, **unit/integration testing**, and **code review**. Has modernized legacy services, mentored junior engineers, solved **500+** data structures and algorithms problems, and works with **AI coding tools** while reviewing every change before merge.

## Technical Skills

**Languages:** C#, Python, Java, TypeScript, JavaScript, SQL
**Backend & APIs:** .NET 8, ASP.NET Core, ASP.NET Web API 2, .NET Framework, Spring Boot, REST APIs, Microservices, CQRS, Swagger/OpenAPI, Entity Framework
**Testing & Quality:** xUnit, NUnit, TDD, Unit/Integration Testing, Code Review, Dependency Injection, SOLID, Data Structures & Algorithms
**Distributed Systems & Cloud:** AWS (EKS, SQS, SNS, Lambda), Event-Driven Architecture, Redis, Multithreading, Docker
**Data:** PostgreSQL, MongoDB, Query Optimization, Indexing
**Engineering Tools:** Azure DevOps, Git, CI/CD, Jira, OAuth 2.0, JWT, AI-Assisted Development (Claude Code, GitHub Copilot)

## Professional Experience

**Verisk Analytics** Hyderabad, India
**Software Engineer II** Apr 2026 -- Present
**Software Engineer I** Jul 2024 -- Mar 2026

- Built **ASP.NET Core Web API** services on **.NET 8** with **Entity Framework** and **SQL** persistence, handling **∼200K requests a week**, with **URL-based versioning** across **16 v2 endpoints** and **Swagger/OpenAPI** docs.
- Wrote **xUnit**/**NUnit** unit and integration tests reaching **90% coverage**, applying **TDD**, **dependency injection**, and **SOLID** principles to keep business logic testable.
- Diagnosed **multithreading** and concurrency defects in **C#**, investigated **flaky tests**, and traced production issues to root cause while supporting production in a biweekly release cycle.
- Tuned hot endpoints through **Redis** caching, connection pooling, and **indexing** on **MongoDB** and **PostgreSQL**, reducing response times by **∼34%**.
- Migrated legacy **.NET Framework** services (**ASP.NET MVC**, **Web API 2**) to **.NET 8** and wrote **2 migration scripts** moving **1M+ records** each.
- Co-designed **RulesRunner**, a stateless **C#** microservice using **CQRS** and an **AWS SQS**-backed worker that cut user wait time from about **3 s to 0.5 s**; authored the design docs for service boundaries and API contracts.
- Designed event-driven pipelines on **AWS SQS**, **SNS**, and **Lambda** with idempotent consumers, retry/backoff, and dead-letter queues, processing about **500 messages a day**.
- Reviewed code across multiple scrum teams through **Git** pull requests, mentored **4 junior engineers**, and reworked **Azure DevOps CI/CD** pipelines, roughly halving deployment time.
- Rolled out **OAuth 2.0** with **Okta**-issued **JWT**s on **AWS EKS** for **6 of 15+** services, and moved **4 client applications** from **Forms Authentication** to **JWT** bearer auth with token revocation.
- Wrote a **Python** agent on the OpenAI API that drafts and routes **30--50 Jira** tickets a week; use **Claude Code** and **GitHub Copilot** daily, reviewing all generated code before merge.

**Software Engineering Intern** Jan 2024 -- Jun 2024

## Projects

**Attendance & Payroll SaaS (sole developer)** Jul 2026 -- Present

- Shipped a multi-tenant payroll and attendance product used by **15+ small businesses**, built on **Spring Boot** (**Java 17**), **PostgreSQL**, **TypeScript**/**React**, and **Docker**, with **JWT** auth and role-based access.
- Handled payroll edge cases such as prorated mid-month rate changes, overtime, and advances, and locked finalized records against retroactive edits.

**Expense Tracker -- Microservices Application** Aug -- Dec 2023

- Created **5 REST** microservices on **Spring Boot** with **Kafka** messaging, containerized with **Docker**.

## Education & Certifications

**B.Tech in Computer Engineering**, Vishwakarma Institute of Technology, Pune 2020 -- 2024 | CGPA 8.8/10
**AWS Certified Cloud Practitioner**, Amazon Web Services Oct 2024
