Sanskar Jain

Java Developer | Spring Boot | Hibernate | REST APIs | React | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Java developer with **2+ years** of professional experience building web applications and **REST APIs** with **Java 17** and **Spring Boot** at Verisk Analytics, plus a full-stack **Spring Boot/React** product built and run solo. Follows established development processes: design docs, code review, tests, and **CI/CD** gates.

Technical Skills

Languages: Core Java, Java 8+ (Lambdas, Streams), Java 17, SQL, JavaScript, TypeScript, HTML, CSS, Python
Java Frameworks & Web: Spring Boot, Spring Security, Spring Data JPA, Hibernate, JSP, Servlets, MVC Pattern, REST APIs, Swagger/OpenAPI, Object-Oriented Design, Design Patterns (CQRS, Repository, Factory)
Frontend: React, JavaScript, TypeScript, HTML, CSS
Databases: PostgreSQL, MongoDB, Redis, Query Optimization
Tools, CI/CD & Cloud: IntelliJ IDEA, Git, Bitbucket, Maven, Azure DevOps Pipelines, Docker, Kubernetes, AWS (EKS, EC2, Lambda, S3, SQS, SNS)
Security & Testing: OAuth 2.0, JWT, RBAC, JUnit, Unit/Integration Testing, Debugging, Code Review, Agile/Scrum, Jira

Professional Experience

Verisk Analytics Hyderabad, India
Software Engineer II Apr 2026 -- Present
Software Engineer I Jul 2024 -- Mar 2026
Software Engineering Intern Jan 2024 -- Jun 2024

- Co-designed **RulesRunner**, a stateless **Java 17/Spring Boot** microservice using **CQRS** and an **AWS SQS**-backed worker to take compliance checks off the client, cutting user wait time from about **3 s to 0.5 s**; wrote the design docs for service boundaries, API contracts, and dead-letter queue handling.
- Built **Spring Boot REST APIs** handling about **200K requests a week**, versioned **16 v2 endpoints** by URL, and documented them with **Swagger/OpenAPI**; used **Java 8+ lambdas** and **streams** for collection processing.
- Developed the backend for Xactimate import/export across **30+** data types, serving **Windows** and **macOS** applications, using asynchronous processing, **S3** presigned URLs, and **MongoDB**; transfers became **38%** faster.
- Tuned hot endpoints with **Redis** caching, connection pooling, and indexing on **PostgreSQL** and **MongoDB**, cutting response times by about **34%**.
- Secured services with **OAuth 2.0** and **Okta**-issued **JWTs** on **AWS EKS** for **6 of 15+** platform services, and moved **4 client applications** from Forms Authentication to **JWT** bearer auth with token revocation.
- Designed **event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent consumers, retry/backoff, and dead-letter queues, processing about **500 messages a day**.
- Worked with **JSP** and **Servlets** on web applications following the **MVC** pattern, and reworked **Azure DevOps** pipelines with staged gates, roughly halving deployment time.
- Reached **90% code coverage** with **JUnit** unit and integration tests, reviewed code across multiple scrum teams, handled production issues **2--3 times a year**, and mentored **4 junior engineers**.
- Use **IntelliJ IDEA**, **GitHub Copilot**, and **Claude Code** daily, with source control on **Git/Bitbucket** for over a year, reviewing all generated code before merge.

Projects

Attendance & Payroll SaaS (sole developer) -- Java 17, Spring Boot, React Jul 2026 -- Present

- Shipped a multi-tenant payroll and attendance product used by **15+ small businesses**: **Spring Boot REST** API with **Hibernate** tenant filters and **PostgreSQL**, **JWT** auth with 3-role **RBAC**, and a **React/TypeScript** UI.
- Wrote the payroll engine for monthly, daily, and hourly pay with prorated rate changes and overtime; finalized records are locked against retroactive edits.

Expense Tracker -- Microservices Application (Java, Spring Boot, React) Aug 2023 -- Dec 2023

- Developed five **Spring Boot** microservices with **Apache Kafka** and **PostgreSQL**, plus a **React** UI in **JavaScript**, **HTML**, and **CSS**; containerized with **Docker** and run on **Kubernetes**.

Education & Certifications

B.Tech in Computer Engineering, Vishwakarma Institute of Technology, Pune 2020 -- 2024 | CGPA 8.8/10
AWS Certified Cloud Practitioner, Amazon Web Services Oct 2024
