Sanskar Jain

Software Engineer | DevOps & Platform | AWS | Kubernetes | CI/CD
Hyderabad, Telangana, India | +91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Software Engineer with **2+ years** of experience building, automating, and operating cloud-native services on **AWS** (**EKS**, **Lambda**, **SQS**, **SNS**) at Verisk Analytics. Hands-on with **CI/CD**, **Docker**, **Kubernetes**, **Terraform**, and observability tooling, having halved deployment time and cut build cycles by 33%. Strong debugging and troubleshooting skills, CLI-first workflow, and end-to-end ownership from design documentation through production support.

Technical Skills

CI/CD & Automation: Azure DevOps Pipelines, GitHub Actions, CI/CD, Build & Release Automation, Pipeline Optimization, Automated Testing, Test Infrastructure
Cloud & Containers: AWS (EKS, ECS, Lambda, S3, SNS, SQS, ElastiCache, CloudWatch), Docker, Kubernetes, Helm, kubectl
Infrastructure as Code: Terraform, AWS CDK
Scripting & Languages: Python, Shell/CLI, C#, Java, TypeScript, SQL
Linux & Tooling: Linux/Unix, Git, Bash, CLI Tools, VS Code, IntelliJ, Jira, Confluence, Swagger/OpenAPI
Monitoring, Logging & Troubleshooting: OpenTelemetry, Splunk, AWS CloudWatch, Distributed Tracing, Log Analysis, Root-Cause Analysis, Debugging
Backend & Practices: .NET 8, Spring Boot, REST APIs, Microservices, Kafka, Redis, PostgreSQL, OAuth 2.0, Agile/Scrum, Code Review

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Slashed deployment time by **50%** and build cycles by **33%** by overhauling **Azure DevOps** CI/CD pipelines with staged gates, parallel jobs, and automated testing.
- Established **OAuth 2.0** authentication on **AWS EKS** behind **Kong API Gateway** for **6 of 15+ platform services**, integrating **Okta**-issued **JWT** tokens for secure cross-service authorization.
- Diagnosed production issues across distributed services using **Splunk** logs, **OpenTelemetry** tracing, and **AWS CloudWatch**, driving root-cause fixes and cutting customer-reported issues by **25%** on Xactimate import/export.
- Architected fault-tolerant **event-driven** pipelines on **AWS SQS**, **SNS**, and **Lambda** with idempotent processing, retry/backoff, and dead-letter queues, sustaining **500+ production messages daily** with zero message loss.
- Co-designed **RulesRunner**, a stateless microservice that offloaded compliance checks to **AWS SQS**, reducing wait time from **3000ms to 500ms (83% improvement)** and enabling horizontal scaling.
- Built an internal **workflow automation agent** on the **OpenAI API** that auto-creates and routes **30--50 Jira tickets per week**, eliminating repetitive manual triage for the engineering team.
- Produced **2 idempotent migration scripts** moving **1M+ records each**, enabling zero-downtime deployments.
- Cut technical debt by **55%** and improved runtime performance by **30%** by migrating legacy **.NET Framework** services to **.NET 8**; improved API response time by **34%** via **Redis**/**ElastiCache** caching.
- Reached **90% code coverage** with **xUnit**/**NUnit** tests and authored technical design documents (service boundaries, API contracts, DLQ handling) to align teams.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Production Platform Jul 2026 -- Present
Live: sanskar-engineers-payroll-ui.onrender.com

- Shipped a multi-tenant **SaaS** to production serving **15+ client organizations**, owning the full lifecycle as sole engineer on **Spring Boot** (**Java 17**), **React**, and **PostgreSQL**.
- Deployed the **Docker**-containerized backend and SPA to **Render** with managed **PostgreSQL** on **Supabase**, and automated daily attendance backfill with a **Spring @Scheduled** job plus cron fallback.

Expense Tracker -- Microservices Application Aug 2023 -- Dec 2023

- Built **5+ Spring Boot microservices** with **Apache Kafka** messaging and **Kong API Gateway**; containerized all services with **Docker** and orchestrated deployments on **Kubernetes**, simulating **1000+ transactions** for load and resilience testing.

Certifications

AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024

Education

B.Tech in Computer Engineering, Vishwakarma Institute of Technology, Pune, India 2020 -- 2024 | CGPA: 8.8/10
