Sanskar Jain

Backend Engineer | Java & Spring Boot | Distributed Systems | AWS | Hyderabad, Telangana, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Backend Engineer with **2+ years** designing reliable, scalable **distributed systems**, **microservices**, and **RESTful APIs** in **Java 17/Spring Boot** on **AWS**, powering high-volume data import, export, and event-driven processing pipelines. Optimizes for **performance**, **reliability**, and **security** (**83%** latency cut, **200K+ weekly requests**, **OAuth 2.0/JWT**), mentors junior engineers, and resolves production issues quickly in **Agile** teams.

Technical Skills

Languages: Java 8+, Java 17, Python, C#, SQL, JavaScript, TypeScript
Backend & APIs: Spring Boot, Spring Security, Spring Data JPA/Hibernate, RESTful API Design, API Versioning, Swagger/OpenAPI, GraphQL, OAuth 2.0, JWT
Distributed Systems: Microservices, Event-Driven Architecture, CQRS, Idempotency, Retry/Backoff, Dead-Letter Queues, Multithreading & Concurrency, Horizontal Scaling, Apache Kafka, AWS SQS/SNS
Databases: SQL (PostgreSQL, MySQL), NoSQL (MongoDB), Redis, Elasticsearch, Schema Design, Indexing, Query Optimization, Data Migrations
Cloud & DevOps: AWS (EKS, ECS, EC2, Lambda, S3), Docker, Kubernetes, Terraform, CDKTF, CI/CD, Azure DevOps Pipelines, Git
Practices: Application Security, Performance Tuning, System Design, Code Review, Mentoring, Unit/Integration Testing, Debugging, Production Support, Agile/Scrum, AI-Assisted Development (Claude Code, GitHub Copilot)

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Designed and maintained **Spring Boot** backend **RESTful APIs** serving **200K+ weekly requests**, with validation, structured error handling, **Swagger/OpenAPI** docs, and **URL-based versioning** across **16 v2 endpoints** to support platform features and scalability.
- Co-designed **RulesRunner**, a stateless **Java 17/Spring Boot** microservice using **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)**, and authored design documentation with product and QA stakeholders to define technical requirements.
- Architected fault-tolerant **distributed event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent processing and retry/backoff, sustaining **500+ messages daily** with zero message loss.
- Engineered a high-volume data import/export backend for **30+ data types** using async processing and **S3**, reducing transfer time by **38%** and customer-reported issues by **25%**, and shipped **2 idempotent migration scripts** moving **1M+ records each**.
- Optimized performance by tuning **MongoDB/PostgreSQL** indexes and queries, adding **Redis** caching (**34%** faster API responses), and resolving multithreading concurrency issues, and troubleshot production incidents **2--3 times per year**.
- Secured services with **OAuth 2.0** behind **Kong API Gateway** on **AWS EKS** for **6 of 15+ platform services**, and ran workloads on **EKS/EC2**, deploying multiple **AWS** production applications as code with **Terraform CDK (CDKTF)**.
- Overhauled **Azure DevOps CI/CD** pipelines with staged gates and automated testing, slashing deployment time by **50%**, and drove quality with unit and integration tests reaching **90% code coverage**.
- **Mentored 4 junior engineers** through code reviews and design feedback, and used **Claude Code** and **GitHub Copilot** daily, reviewing all generated code before merge, to set best practices for backend development.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Platform (Java 17, Spring Boot, PostgreSQL, React) Jul 2026 -- Present

- Shipped and operate a multi-tenant **SaaS** in production as sole engineer for **15+ client organizations**, owning **REST API** design, **PostgreSQL** schema, **JWT** security, and **Docker** deployment.

Expense Tracker -- Distributed Microservices Application (Java, Spring Boot, Kafka) Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with asynchronous **Apache Kafka** messaging and **PostgreSQL**, containerized with **Docker** and load-tested with **1000+ transactions**.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
