Sanskar Jain

Java Full Stack Developer | Spring Boot & React | AWS | Hyderabad, Telangana, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Full stack developer with **2+ years** building **Java/Spring Boot REST APIs** and **microservices** on **AWS**, backed by **PostgreSQL** and **MongoDB**, plus a **React** frontend in my own projects. Ship in **Agile** biweekly releases with **CI/CD**, **TDD**, and **90% test coverage**. Work independently on design-to-production features and mentor junior engineers.

Technical Skills

Languages: Java 17, JavaScript, TypeScript, SQL, Python, C#
Backend & APIs: Spring Boot, Spring Data JPA/Hibernate, REST APIs, Microservices, Event-Driven Architecture, Swagger/OpenAPI
Frontend: React 18, JavaScript, TypeScript, HTML, CSS
Databases: PostgreSQL, MongoDB, Redis, Elasticsearch, Query Optimization
Cloud & DevOps: AWS (EC2, EKS, Lambda, S3, SQS, SNS), Docker, Kubernetes, CI/CD, Azure DevOps, Maven, Git
Practices: Test-Driven Development, Unit/Integration Testing, Code Review, Agile/Scrum, Jira, GitHub Copilot, Claude Code

Professional Experience

Verisk Analytics Hyderabad, India
Software Engineer II Apr 2026 -- Present
Software Engineer I Jul 2024 -- Mar 2026

- Co-designed **RulesRunner**, a stateless **Java/Spring Boot** microservice that moved compliance checks off the client onto an **SQS**-backed worker, cutting user wait time from about **3 s to 0.5 s**, and wrote the design docs covering service boundaries, API contracts, and DLQ handling.
- Developed **Java/Spring Boot REST APIs** handling ∼**200K requests a week**, adding **URL-based versioning** across **16 v2 endpoints** with **Swagger/OpenAPI** documentation.
- Engineered the backend for **Xactimate** import/export across **30+ data types** using asynchronous processing, **S3** presigned URLs, and **MongoDB**, making transfers ∼**38%** faster and reducing related customer tickets by roughly a quarter.
- Designed **event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent consumers, retries, and dead-letter queues, processing ∼**500 production messages a day**.
- Tuned **PostgreSQL** and **MongoDB** indexes, applied **Elasticsearch** to cut search latency, and added **Redis** caching for ∼**34%** faster hot endpoints; wrote **2 migration scripts** moving **1M+ records** each.
- Rolled out **OAuth 2.0** with Okta-issued **JWTs** on **AWS EKS** behind **Kong API Gateway** for **6 of 15+ platform services**, and ran services on **AWS EC2** across multiple regions with **Docker** and **Kubernetes**.
- Reworked **Azure DevOps CI/CD** pipelines with staged gates and parallel **Maven** build jobs, roughly halving deployment time, and supported **biweekly releases** plus production support 2--3 times a year.
- Wrote unit and integration tests reaching **90% code coverage** using **TDD**, reviewed code across multiple **Agile** scrum teams, and mentored **4 junior engineers**.
- Built an internal **Python** agent on the **OpenAI API** that drafts and routes **30--50 Jira tickets a week**; use **GitHub Copilot** and **Claude Code** daily, reviewing all generated code before merge.

Projects

Attendance & Payroll SaaS (sole developer) -- Java 17, Spring Boot, React, TypeScript Jul 2026 -- Present

- Owned design, build, deployment, and support of a multi-tenant **SaaS** used by **15+ small businesses**, with a **Spring Boot** backend on **PostgreSQL**, **Hibernate** filters for tenant isolation, and a **React 18**/**TypeScript** frontend built with **HTML**, **CSS**, and **JavaScript**.
- Secured the app with **JWT** auth, revocable refresh tokens, and 3-role access control, and implemented a payroll engine for monthly, daily, and hourly pay with proration, overtime, and advances.

Expense Tracker -- Spring Boot Microservices, Kafka, React Aug 2023 -- Dec 2023

- Created five **Spring Boot** microservices with **Apache Kafka** and **Kong API Gateway**, plus a **React** frontend of 9+ **JavaScript** components, containerized with **Docker** and run on **Kubernetes**.

Education & Certifications

B.Tech in Computer Engineering, Vishwakarma Institute of Technology, Pune 2020 -- 2024 | CGPA 8.8/10
AWS Certified Cloud Practitioner, Amazon Web Services Oct 2024
