Sanskar Jain

Software Engineer | Java & Spring Boot | Cloud-Native & DevOps | Hyderabad, Telangana, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Backend Software Engineer with **2+ years** building high-performing, scalable **Java/Spring Boot** services and cloud-native **microservices** on **AWS**, from technical design and estimation through testing, deployment, and production support. Cut latency by **83%**, served **200K+ weekly API requests**, and drove quality with **90% automated test coverage** and **CI/CD** quality gates in **Agile** teams. Own delivery end to end, **mentor 4 junior engineers**, and communicate trade-offs clearly.

Technical Skills

Languages: Java 11+, Java 17, SQL, Python, C#, JavaScript, TypeScript
Backend & Architecture: Spring Boot, Spring Security, Spring Data JPA/Hibernate, REST APIs, Microservices, Cloud-Native Design, Event-Driven Architecture, Design Patterns (CQRS), Swagger/OpenAPI
DevOps & Cloud: AWS (EC2, EKS, Lambda, S3, SQS, SNS), Docker, Kubernetes, CI/CD, Azure DevOps Pipelines, Terraform, Maven, Git, Linux/CLI
Databases & Messaging: PostgreSQL, MySQL, MongoDB, Elasticsearch, Redis, Apache Kafka, Schema Design, Query Optimization, Database Migrations
Quality & Practices: Test Automation, Unit/Integration Testing (90% coverage), Code Quality Gates, Code Review, Mentoring, Technical Design Documentation, Agile/Scrum, Production Support, AI-Assisted Development (GitHub Copilot, Claude Code)

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Co-designed **RulesRunner**, a stateless **Java/Spring Boot** microservice using **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)**, and authored the technical design covering service boundaries, API contracts, and dead-letter queue handling.
- Built **Java/Spring Boot REST APIs** serving **200K+ weekly requests** with validation, **Swagger/OpenAPI** contracts, and **URL-based versioning** across **16 v2 endpoints**, and engineered **Xactimate** import/export of **30+ data types**, cutting transfer time by **38%**.
- Architected fault-tolerant **event-driven** pipelines on **AWS SQS**, **SNS**, and **Lambda** with idempotent processing and retries, sustaining **500+ messages daily** with zero message loss.
- Tuned **PostgreSQL/MongoDB** indexing, added **Redis** caching (**34%** faster APIs), and shipped **2 idempotent migration scripts** moving **1M+ records each** with zero downtime.
- Overhauled **Azure DevOps CI/CD** pipelines with staged quality gates, parallel jobs, and automated testing for **biweekly releases**, slashing deployment time by **50%** and build cycles by **33%**.
- Wrote automated unit and integration tests reaching **90% code coverage** and **mentored 4 junior engineers** through code reviews covering architecture, edge cases, and production readiness, upholding team coding standards.
- Deployed **OAuth 2.0** on **AWS EKS** behind **Kong API Gateway** for **6 of 15+ platform services**, ran services on **AWS EC2**, and gave **production support 2--3 times per year**, resolving live incidents.
- Migrated legacy services to modern async patterns, cutting technical debt by **55%**, and used **GitHub Copilot** and **Claude Code** daily to boost productivity, reviewing all generated code before merge.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Platform (Java 17, Spring Boot, PostgreSQL, React) Jul 2026 -- Present

- Owned design, development, testing, deployment, and support as sole engineer of a production **SaaS** for **15+ client organizations**, using **Spring Boot REST APIs**, **PostgreSQL**, **JWT** security, and **Docker**.

Expense Tracker -- Event-Driven Microservices (Java, Spring Boot, Kafka) Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with **Apache Kafka** messaging, **PostgreSQL**, and **Kong API Gateway**, containerized with **Docker** and orchestrated on **Kubernetes**.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
