Sanskar Jain

Senior Software Engineer | Java, Spring & Hibernate | Web Services | SQL | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Software Engineer with **2+ years** building secure, high-quality **Java/Spring Boot** web services and customer-facing products on **AWS**, from design documents and proof of concepts through **Agile/Scrum** delivery. Enjoys solving hard problems, reviewing code, and sharing knowledge, having **mentored 4 junior engineers** while learning new platforms quickly.

Technical Skills

Languages: Java 8+, Java 17, SQL, JavaScript, TypeScript
Backend & Frameworks: Spring Boot, Spring Security, Hibernate, J2EE-style Layered Applications, REST Web Services, Microservices, Event-Driven Architecture, Design Patterns (CQRS, Repository, Factory), Swagger/OpenAPI
Databases & Messaging: PostgreSQL, MongoDB, Elasticsearch, Redis, Apache Kafka, AWS SQS/SNS, SQL Query Optimization, Indexing, Database Migrations
Cloud-Native & DevOps: AWS (EKS, EC2, Lambda, S3), Docker, Kubernetes, Kong API Gateway, CI/CD, Azure DevOps Pipelines, Git, Linux/UNIX CLI
Security & Practices: OAuth 2.0, JWT, Okta, Role-Based Access Control, Unit/Integration Testing, Code Review, Agile/Scrum, Technical Design Documents, Proof of Concepts

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Co-designed **RulesRunner**, a stateless **Java/Spring Boot** microservice using **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)**, and authored the **technical design document** for service boundaries, API contracts, and dead-letter handling.
- Built **Spring Boot REST web services** serving **200K+ weekly requests**, with validation, structured error handling, **Swagger/OpenAPI** contracts, and **URL-based versioning** across **16 v2 endpoints** to preserve client compatibility.
- Delivered the backend for **Xactimate** import/export of **30+ data types**, a customer-facing product workflow, using async processing, **S3** presigned URLs, and **MongoDB**, cutting transfer time **38%** and customer-reported issues **25%**.
- Architected fault-tolerant **event-driven** pipelines with idempotent processing, retry/backoff, **SNS**, and **Lambda** consumers, sustaining **500+ production messages daily** with zero message loss.
- Tuned **SQL** queries by analyzing slow access patterns, adding **PostgreSQL**/**MongoDB** indexes, **Elasticsearch** search, and **Redis** caching (**34%** faster responses), and ran proof-of-concept evaluations before shipping **2 migration scripts** moving **1M+ records** each.
- Secured services with **OAuth 2.0** on **AWS EKS** behind **Kong API Gateway** for **6 of 15+** cloud-native platform services, using **Okta JWT** tokens and **Redis**-backed revocation that cut post-logout replay from up to **7 days** to **under 1 second**.
- Overhauled **Azure DevOps CI/CD** pipelines with staged quality gates for **biweekly Scrum** releases, cutting deployment time **50%**, while reaching **90% code coverage** with unit and integration tests.
- Performed **code reviews across multiple scrum teams** to uphold coding standards, **mentored 4 junior engineers** with design guidance, and resolved production incidents (**2--3 times per year**) from the **Linux/UNIX** command line.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Production Platform (Java 17, Spring Boot) Jul 2026 -- Present

- Shipped a customer-facing multi-tenant **SaaS** to production as sole engineer, serving **15+ client organizations** with **Spring Boot**, **Hibernate** tenant filters, **PostgreSQL**, **Spring Security/JWT** role-based access, a **React/TypeScript** UI, and **Docker** deployment.

Expense Tracker -- Microservices Application (Java, Spring Boot, Kafka) Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with **Apache Kafka** messaging and **PostgreSQL**, deployed on **Kubernetes** and load-tested with **1000+** transactions.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
