Sanskar Jain

Java Backend Engineer | Spring Boot | Microservices | Design Patterns | NoSQL & SQL | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Java backend engineer with **2+ years** of experience building server-side **REST APIs** and scalable **microservices** in **Java 17/Spring Boot** with **JPA/Hibernate**, strong **OOP** and **design pattern** fundamentals, and **NoSQL/SQL** data stores. Analyzes, designs, codes, and tests services end to end in **Agile** teams, with solid **asynchronous programming**, **Linux**, and **CI/CD** skills.

Technical Skills

Languages: Java 17, OOP, C#, Python, SQL, JavaScript, TypeScript
Backend & APIs: Spring Boot, Spring MVC, Spring Security, Spring Data JPA/Hibernate, Java Enterprise Applications, REST API Design, API Versioning, GraphQL, Swagger/OpenAPI
Architecture & Patterns: Microservices, Scalable Architecture, Design Patterns (CQRS, Factory, Repository), Event-Driven Architecture, Asynchronous Programming, Multithreading, Idempotency, Retry/Backoff
Databases: NoSQL (MongoDB, Redis, Elasticsearch), SQL (PostgreSQL, MySQL), In-Memory Caching (Redis, ElastiCache), Indexing, Query Optimization, Database Migrations
Messaging: Apache Kafka, AWS SQS/SNS
Cloud, Linux & CI/CD: Linux/CLI, AWS (EKS, EC2, Lambda, S3), Docker, Kubernetes, Terraform, CI/CD, Azure DevOps Pipelines, Git
Testing & Practices: Unit/Integration Testing, Test Suites, Test Automation, Agile/Scrum, Code Review, Technical Design Documents, Data Structures & Algorithms

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Co-designed **RulesRunner**, a stateless **Java 17/Spring Boot** microservice applying **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)** and enabling horizontal scaling.
- Analyzed requirements and authored technical design documents defining service boundaries, API contracts, dead-letter queue handling, and event publishing before implementation, applying **OOP** principles and **design patterns** (CQRS, Factory, Repository).
- Built server-side **REST** and **GraphQL** APIs serving **200K+ weekly requests**, versioned **16 v2 endpoints** for backward compatibility, and resolved concurrency defects in multithreaded services.
- Architected fault-tolerant **asynchronous event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent processing and retry/backoff, sustaining **500+ messages daily** with zero message loss under failure conditions.
- Tuned **MongoDB/PostgreSQL** indexes, added **Redis** in-memory caching, and traced bottlenecks with **OpenTelemetry** to cut API response time by **34%**, using **SQL** and **Linux** command-line tools to diagnose production incidents.
- Wrote unit and integration test suites reaching **90% code coverage**, and overhauled **Azure DevOps CI/CD** pipelines with automated testing and staged gates, slashing deployment time by **50%** across **biweekly** Agile releases.
- Ran services on **AWS EKS** and **EC2** across **eu-west-1** and **us-west-2**, and secured **6 of 15+ platform services** with **OAuth 2.0** and **JWT** behind **Kong API Gateway**.
- Mentored **4 junior engineers**, used **Claude Code** and **GitHub Copilot** daily while reviewing all generated code before merge, and built an **OpenAI API** agent auto-routing **30--50 Jira tickets per week**.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Platform (Java 17, Spring Boot, PostgreSQL, React) Jul 2026 -- Present

- Shipped a multi-tenant **SaaS** to production as sole engineer, serving **15+ client organizations**, with **Hibernate**-enforced tenant isolation, **Spring Security** with **JWT** and role-based access, and **Docker** deployment.

Expense Tracker -- Distributed Microservices Application (Java, Spring Boot, Kafka) Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with asynchronous **Apache Kafka** messaging and **PostgreSQL**, containerized with **Docker**, orchestrated on **Kubernetes**, and load-tested with **1000+ transactions**.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
