Sanskar Jain

Software Engineer | Python & C# | Kubernetes Microservices | Cloud-Native | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Software Engineer with **2+ years** designing, deploying, and operating cloud-native **microservices** on **Kubernetes** and **AWS**, with **RESTful** service-to-service integrations, **CI/CD**, and **observability** built in. Works across **C#/.NET 8**, **Python** automation, and **React/TypeScript**; known for analytical problem solving, clear design docs, and picking up new technologies quickly.

Technical Skills

Languages: C#, Python, Java, TypeScript, JavaScript
Backend & APIs: .NET 8, ASP.NET Core, .NET Framework, Spring Boot, RESTful APIs, GraphQL, Swagger/OpenAPI, Microservices, Event-Driven Architecture, CQRS
Cloud & Containers: AWS (EKS, Lambda, S3, SQS, SNS, ElastiCache), Kubernetes, Docker, Istio, Kong API Gateway, Terraform CDK (CDKTF), Multi-Region Deployment
Observability & Ops: OpenTelemetry, AWS CloudWatch, Splunk, Metrics & Alerting, Distributed Tracing, Production Support
Quality & CI/CD: Automated Testing, xUnit, NUnit, Integration Testing, Azure DevOps Pipelines, CI/CD, Git, Code Reviews, Performance Optimization
Data & Security: PostgreSQL, MongoDB, Elasticsearch, Redis, Apache Kafka, OAuth 2.0, JWT, Okta, RBAC
Frontend & AI Tools: React 18, TailwindCSS, OpenAI API, GitHub Copilot, Claude Code

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Co-designed **RulesRunner**, a stateless **.NET 8** microservice using **CQRS** and **AWS SQS** that offloaded compliance checks, cutting wait time from **3000ms to 500ms (83%)**, and authored the design docs defining service boundaries and API contracts.
- Architected fault-tolerant **event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent processing and retry/backoff, sustaining **500+ production messages daily** with zero message loss.
- Built **ASP.NET Core RESTful APIs** and service-to-service integrations serving **200K+ weekly requests**, with **Swagger/OpenAPI** contracts, **GraphQL** endpoints, and versioning across **16 v2 endpoints**.
- Deployed and operated containerized microservices on **AWS EKS** (**Kubernetes**) with **Istio**, securing **6 of 15+** services with **OAuth 2.0** behind **Kong API Gateway**, and provisioned infrastructure with **CDKTF** across **2 AWS regions**.
- Instrumented services with **OpenTelemetry** distributed tracing and configured **CloudWatch** and **Splunk** metrics and alerting, resolving production incidents **2--3 times per year** as part of production support.
- Hardened authentication by migrating **4 client apps** to **JWT** bearer auth over a **Redis** session store with **Okta** integration, shrinking the post-logout token replay window from **7 days to under 1 second**.
- Optimized performance with **Redis/ElastiCache** caching (**34%** faster APIs), **MongoDB/PostgreSQL** index tuning, and **Elasticsearch**, and shipped **2 zero-downtime migrations** of **1M+ records**.
- Developed a **Python** workflow automation agent on the **OpenAI API** that auto-creates and routes **30--50 Jira tickets per week**, and use **GitHub Copilot** and **Claude Code** daily, reviewing all generated code.
- Overhauled **Azure DevOps CI/CD** pipelines with quality gates and automated tests, cutting deployment time by **50%**, and wrote **xUnit/NUnit** unit and integration tests reaching **90% coverage**.
- Migrated legacy **.NET Framework** services to **.NET 8**, cutting technical debt by **55%** and improving runtime by **30%**; led **code reviews** and mentored **4 junior engineers**.

Projects

Attendance & Payroll SaaS -- Full-Stack Multi-Tenant Platform Jul 2026 -- Present

- Shipped to production as sole engineer, serving **15+ client organizations**, with a **React 18/TypeScript/TailwindCSS** UI and **Spring Boot** APIs using **JWT** auth, **RBAC** across **3 roles**, **PostgreSQL**, and **Docker**.

Expense Tracker -- Microservices Application Aug 2023 -- Dec 2023

- Built **5+ Java Spring Boot** microservices with **Apache Kafka** messaging and a **JavaScript/React** UI, deployed on **Kubernetes** and load-tested with **1000+ transactions**.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
