Sanskar Jain

Software Engineer | API-First Services | React & TypeScript | AWS | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Software engineer with **2+ years** building versioned, API-first **REST** services and event-driven **microservices** on **AWS**, plus a **React/TypeScript** product used by 15+ small businesses. Writes design docs for service boundaries and API contracts, works across teams through code review and mentoring, and has built an **OpenAI API** agent in production use.

Technical Skills

Languages: C#, TypeScript, Java, Python, SQL
Backend & Frontend: .NET 8, ASP.NET Core, REST APIs, Swagger/OpenAPI, Spring Boot, React
AWS & Infrastructure: Lambda, S3, SQS, SNS, EKS, ElastiCache, Terraform CDK (CDKTF), Docker, Kubernetes, Kong API Gateway
Data & Search: Elasticsearch, MongoDB, PostgreSQL, Redis, Apache Kafka
CI/CD & Testing: Azure DevOps Pipelines, xUnit, NUnit
Auth & AI: OAuth 2.0, JWT, Okta, OpenAI API, MCP servers, Claude Code, GitHub Copilot

Professional Experience

Verisk Analytics Hyderabad, India
Software Engineer II Apr 2026 -- Present
Software Engineer I Jul 2024 -- Mar 2026

- Co-designed **RulesRunner**, a stateless **.NET** microservice that moved compliance checks off the client onto an **SQS**-backed worker, cutting user wait time from about 3 s to 0.5 s and allowing horizontal scaling.
- Built the Xactimate import/export backend across **30+ data types** using asynchronous processing, **S3** presigned URLs, and **MongoDB**; transfers became **38%** faster and related customer tickets fell by roughly a quarter.
- Added URL-based versioning across **16 v2 endpoints** and **Swagger/OpenAPI** docs to **ASP.NET Core REST** APIs handling about **200K requests a week**, so front-end clients could adopt changes without breaking.
- Designed event-driven pipelines on **SQS**, **SNS**, and **Lambda** with idempotent consumers, retry/backoff, and dead-letter queues, handling about **500 production messages a day**; wrote the design docs for service boundaries and API contracts.
- Cut hot-endpoint response times by **34%** through **ElastiCache** caching, connection pooling, and index tuning on **MongoDB** and **PostgreSQL**, and used **Elasticsearch** to reduce search latency.
- Rolled out **OAuth 2.0** with Okta-issued **JWTs** on **AWS EKS** behind **Kong API Gateway** for **6 of 15+** platform services, and migrated 4 client applications from Forms Authentication to JWT bearer auth with token revocation.
- Migrated legacy **.NET Framework** services (ASP.NET MVC, Web API 2) to **.NET 8**, reworked **Azure DevOps CI/CD** pipelines with staged gates and parallel jobs to roughly halve deployment time, and deployed multiple applications to **AWS** production as infrastructure as code with **CDKTF**.
- Wrote **xUnit** and **NUnit** tests to **90%** coverage, mentored **4 junior engineers**, and reviewed code across multiple scrum teams.
- Built a **Python** agent on the **OpenAI API** with custom orchestration and prompt engineering that drafts and routes **30--50 Jira tickets a week**; use **Claude Code**, **GitHub Copilot**, and **MCP** servers daily, reviewing all generated code before merge.

Software Engineering Intern Jan 2024 -- Jun 2024

Projects

Attendance & Payroll SaaS -- Multi-Tenant Platform (sole developer) Jul 2026 -- Present

- Built and run a multi-tenant payroll product for **15+ small businesses**, with a **React** and **TypeScript** front end consuming a **Spring Boot** (**Java 17**) **REST** API over **PostgreSQL**, deployed with **Docker** on Render.
- Isolated tenants through a shared-schema `org_id` with Hibernate filters, and secured access with **JWT** 15-minute access tokens, revocable refresh tokens, and 3-role RBAC.

Expense Tracker -- Microservices Application Aug 2023 -- Dec 2023

- Developed five **Spring Boot** microservices with **Apache Kafka** messaging and **Kong API Gateway**, containerized with **Docker** and run on **Kubernetes**.

Education & Certifications

B.Tech in Computer Engineering, Vishwakarma Institute of Technology, Pune 2020 -- 2024 | CGPA 8.8/10
AWS Certified Cloud Practitioner, Amazon Web Services Oct 2024
