# Sanskar Jain

Product Development Engineer | Java & Spring | MongoDB | React | AWS | Hyderabad, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

## Professional Summary

Backend Software Engineer with **2+ years** building scalable, secure **SaaS** services in **Java/Spring Boot**, **REST/JSON**, and **MongoDB** on **AWS**, with **React** UI experience and a strong foundation in **algorithms and data structures** (**500+** problems solved). Contributes to architecture and design, mentors junior engineers, and delivers independently and collaboratively in fast-paced, multi-region **Agile** teams.

## Technical Skills

**Languages:** Java 8+, Java 17, SQL, JavaScript, TypeScript, Python, C#
**Backend & Frameworks:** Java/J2EE, Spring Boot, Spring MVC, Spring Security, Spring Data JPA/Hibernate, REST APIs, JSON, Web Services, Microservices, Multi-Tenant SaaS
**Architecture & Design:** Design Patterns (CQRS, Factory, Repository), System Design, Event-Driven Architecture, Technical Design Documentation, Algorithms & Data Structures, Multithreading/Concurrency
**Frontend:** React, JavaScript, TypeScript, HTML, CSS, Axios
**Databases & Messaging:** MongoDB, PostgreSQL, MySQL, Elasticsearch, Redis, AWS SQS/SNS, Apache Kafka, Query Optimization, Indexing
**Cloud & DevOps:** AWS (EKS, ECS, EC2, Lambda, S3, SQS, SNS), Docker, Kubernetes, Terraform, CI/CD, Azure DevOps Pipelines, Maven, Git
**Security & Practices:** OAuth 2.0, JWT, RBAC, Secure Coding, Unit/Integration Testing, Code Review, Agile/Scrum, Jira, AI-Assisted Development (GitHub Copilot, Claude Code)

## Professional Experience

**Verisk Analytics** Jan 2024 -- Present
**Software Engineer II** Hyderabad, India

- Co-designed **RulesRunner**, a stateless **Java 17/Spring Boot** microservice using **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)** and authoring the design document covering service boundaries, API contracts, and dead-letter queue handling.
- Engineered a scalable **SaaS** backend for **Xactimate's** import/export of **30+ data types** using asynchronous processing, **Amazon S3** presigned URLs, and **MongoDB**, reducing transfer time by **38%** and customer-reported issues by **25%**.
- Built **Spring Boot REST APIs** exchanging **JSON** for **200K+ weekly requests**, versioning **16 v2 endpoints** for backward compatibility, and tuning **MongoDB/PostgreSQL** indexes, **Elasticsearch** search, and **Redis** caching to cut response time by **34%**.
- Architected resilient **event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent processing and retry/backoff strategies, sustaining **500+ messages daily** with zero message loss, deployed across **multiple AWS regions** (eu-west-1, us-west-2).
- Secured services with **OAuth 2.0** on **AWS EKS** behind **Kong API Gateway** for **6 of 15+ platform services**, and cut post-logout token replay from up to **7 days** to **under 1 second** using **JWT** revocation over a **Redis** session store.
- Provisioned **AWS** production workloads (**EC2**, **EKS**) as infrastructure as code with **Terraform CDK**, and slashed deployment time by **50%** by overhauling **Azure DevOps CI/CD** pipelines for **biweekly releases**.
- Mentored **4 junior engineers**, wrote unit and integration tests reaching **90% code coverage**, and used **GitHub Copilot** and **Claude Code** daily, reviewing all generated code before merge.

## Projects

**Attendance & Payroll SaaS -- Multi-Tenant Platform (Java 17, Spring Boot, React)** Jul 2026 -- Present

- Shipped a multi-tenant **SaaS** end to end as sole engineer -- **Spring Boot REST** APIs, **React/TypeScript** UI, **PostgreSQL**, **Docker** -- serving **15+ client organizations**, enforcing tenant isolation with **Hibernate** filters and securing access with **Spring Security**, **JWT**, and **RBAC**.

**Expense Tracker -- Microservices Application (Java, Spring Boot, React, Kafka)** Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with **Apache Kafka** messaging and **PostgreSQL**, plus a **React** UI of **9+** reusable components; deployed on **Kubernetes** and load-tested with **1000+ transactions**.

## Education & Certifications

**B.Tech in Computer Engineering** 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
**AWS Certified Cloud Practitioner** Amazon Web Services | Oct 2024
