Sanskar Jain

Full Stack Software Engineer | Java & Spring Boot | React | GenAI Agents | Hyderabad, Telangana, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Full Stack Software Engineer with **2+ years** building enterprise-grade **Java/Spring Boot** microservices, **RESTful APIs**, and **React** frontends for high-volume platforms (**200K+ weekly requests**, **500+ daily events**). Built an **LLM-powered agent** on the **OpenAI API** and uses **Claude Code** and **GitHub Copilot** daily as development companions. Owns code quality, **CI/CD**, testing (**90% coverage**), and production support in **Agile** teams.

Technical Skills

Languages: Java 11+, Java 17, JavaScript, TypeScript, Python, SQL, C#
Backend & Frontend: Spring Boot, Spring Security, Spring Data JPA/Hibernate, REST APIs, Microservices, Event-Driven Architecture, React 18, HTML, CSS
GenAI & AI-Assisted Delivery: LLM Integration (OpenAI API), AI Agents, Prompt Engineering, Agent Orchestration, Claude Code CLI, GitHub Copilot, Responsible AI Practices
Messaging & Data: Apache Kafka, AWS SQS/SNS, Redis, PostgreSQL, MySQL, MongoDB, Elasticsearch, Query Optimization
Cloud & DevOps: AWS (EC2, EKS, Lambda, S3), Docker, Kubernetes, CI/CD, Azure DevOps, Release Automation, Git
Engineering Practices: OOP, Data Structures & Algorithms, Design Patterns (CQRS), Unit/Integration Testing, Code Review, System Design, Agile/Scrum, Production Support

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Co-designed **RulesRunner**, a stateless **Java/Spring Boot** microservice using **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)**, and documented service boundaries, API contracts, and DLQ handling in the technical design.
- Developed an internal **AI workflow agent** on the **OpenAI API** with prompt engineering and custom orchestration, integrating with **Jira** APIs to auto-create and route **30--50 tickets per week** and eliminate manual triage.
- Adopted **Claude Code** and **GitHub Copilot** daily as AI development companions for implementation, debugging, and refactoring, reviewing all generated code before merge to uphold quality standards.
- Built **Java/Spring Boot REST APIs** serving **200K+ weekly requests** with **Swagger/OpenAPI** contracts and **URL-based versioning** across **16 v2 endpoints**, and engineered **Xactimate** import/export of **30+ data types**, cutting transfer time by **38%**.
- Architected fault-tolerant **event-driven** pipelines on **AWS SQS**, **SNS**, and **Lambda** with idempotent processing and retries, sustaining **500+ messages daily** with zero message loss.
- Tuned **PostgreSQL/MongoDB** indexing, added **Redis** caching (**34%** faster APIs), and shipped **2 idempotent migration scripts** moving **1M+ records each** with zero downtime.
- Deployed **OAuth 2.0** on **AWS EKS** behind **Kong API Gateway** for **6 of 15+ platform services**, ran services on **AWS EC2**, and provided **production support 2--3 times per year**, deploying fixes for live incidents.
- Overhauled **Azure DevOps CI/CD** pipelines for **biweekly releases**, slashing deployment time by **50%**, and migrated legacy services to modern async patterns, cutting technical debt by **55%**.
- Wrote unit and integration tests reaching **90% code coverage** and participated in **code reviews** applying team coding standards.

Projects

Attendance & Payroll SaaS -- Full-Stack Platform (Java 17, Spring Boot, React, TypeScript) Jul 2026 -- Present

- Owned design, build, testing, deployment, and support of a production multi-tenant **SaaS** for **15+ client organizations**, using **Spring Boot REST APIs**, **PostgreSQL**, a **React 18/TypeScript** frontend, **JWT** auth, and **Docker**.

Expense Tracker -- Event-Driven Microservices (Java, Spring Boot, Kafka, React) Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with **Apache Kafka** messaging and **PostgreSQL**, plus a **React** frontend of **9+** components, orchestrated on **Kubernetes**.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
