Sanskar Jain

Java Software Engineer | REST & API Management | SQL | Hyderabad, Telangana, India
+91 90216 20156 | sanskarjain0901@gmail.com | linkedin.com/in/sanskar-jain0901

Professional Summary

Computer Engineering graduate and Software Engineer with **2+ years** of experience designing, scaling, and maintaining **Java/Spring Boot REST** services and **SQL**-backed applications across the full **Agile** lifecycle, from requirements analysis through release and maintenance. Takes initiative, owns results, works closely with cross-functional and international teams, and communicates fluently in written and spoken **English**.

Technical Skills

Languages: Java 8+, Java 17, SQL, JavaScript, TypeScript
Backend & APIs: Spring Boot, Spring Security, Hibernate, REST APIs, API Management, Kong API Gateway, Swagger/OpenAPI, API Versioning, Microservices
Architecture & Scaling: Software Architecture, System Design, Event-Driven Architecture, Design Patterns (CQRS, Repository, Factory), Horizontal Scaling, Technical Design Documentation
Databases & Messaging: PostgreSQL, MongoDB, Elasticsearch, Redis, Apache Kafka, AWS SQS/SNS, Query Optimization, Indexing, Database Migrations
Cloud & DevOps: AWS (EKS, EC2, Lambda, S3), Docker, Kubernetes, Terraform CDK (CDKTF), CI/CD, Azure DevOps Pipelines, Git
Security & Practices: OAuth 2.0, JWT, Role-Based Access Control, Unit/Integration Testing, Code Review, Agile/Scrum, Production Support

Professional Experience

Verisk Analytics Jan 2024 -- Present
Software Engineer II Hyderabad, India

- Co-designed **RulesRunner**, a stateless **Java 17/Spring Boot** microservice using **CQRS** and **AWS SQS** to offload compliance checks, cutting wait time from **3000ms to 500ms (83%)** while enabling **horizontal scaling**, and authoring the technical design for service boundaries, API contracts, and dead-letter handling.
- Architected resilient **event-driven** pipelines on **SQS**, **SNS**, and **Lambda** with idempotent processing and retry/backoff strategies, sustaining **500+ production messages daily** with zero message loss under failure conditions.
- Built **Spring Boot REST APIs** serving **200K+ weekly requests**, documented with **Swagger/OpenAPI** and versioned across **16 v2 endpoints** so existing clients migrated without breakage.
- Tuned **SQL** performance by analyzing slow queries and access patterns, adding **PostgreSQL**/**MongoDB** indexes, **Elasticsearch** search, and **Redis** caching for **34%** faster responses, and shipped **2 idempotent migration scripts** moving **1M+ records** each.
- Established **API management** through **Kong API Gateway** with **OAuth 2.0** on **AWS EKS** for **6 of 15+ platform services**, and cut post-logout token replay from up to **7 days** to **under 1 second** with **JWT** revocation over a **Redis** session store.
- Delivered features across the full **Agile/Scrum** lifecycle, from requirements analysis and technical design through **biweekly releases** and production support (**2--3 times per year**), and **mentored 4 junior engineers**.
- Raised quality with unit and integration tests at **90% code coverage** and overhauled **Azure DevOps CI/CD** pipelines with staged gates, cutting deployment time by **50%**.
- Deployed multiple applications to **AWS** production (**EC2**, **EKS**) in multiple regions (**eu-west-1**, **us-west-2**) as infrastructure as code with **Terraform CDK (CDKTF)**.

Projects

Attendance & Payroll SaaS -- Multi-Tenant Production Platform (Java 17, Spring Boot) Jul 2026 -- Present

- Owned requirements, design, delivery, and support as sole engineer of a multi-tenant **SaaS** serving **15+ client organizations**, built on **Spring Boot**, **Hibernate**, **PostgreSQL**, **Spring Security/JWT**, **React/TypeScript**, and **Docker**.

Expense Tracker -- Microservices Application (Java, Spring Boot, Kafka) Aug 2023 -- Dec 2023

- Developed **5+ Spring Boot** microservices with **Apache Kafka** messaging and **PostgreSQL**, deployed on **Kubernetes** and load-tested with **1000+** transactions.

Education & Certifications

B.Tech in Computer Engineering 2020 -- 2024
Vishwakarma Institute of Technology, Pune, India CGPA: 8.8/10
AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024
