Sanskar Jain

Software Engineer — Java — REST APIs — Microservices — SQL/NoSQL — CI/CD
Hyderabad, Telangana, India
9021620156 — sanskarjain0901@gmail.com — LinkedIn

Summary

Software engineer with 2+ years and a B.Tech in Computer Engineering, building **Java/Spring Boot** REST APIs and microservices at Verisk Analytics. Strong foundation in **data structures, algorithms, and OOP**, with hands-on experience across **SQL/NoSQL databases** (MongoDB, PostgreSQL, MySQL), **Git** version control, and **CI/CD**/DevOps pipelines. Exposure to **React** for full-stack feature delivery, **AWS** cloud services, and Agile teams; fast learner with strong communication and analytical problem-solving skills.

Skills

Languages: Java, C#, Python, JavaScript, SQL
Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Design Patterns, Problem-Solving
Backend & Frameworks: Spring Boot, ASP.NET Core, REST APIs, Microservices Architecture, Event-Driven Architecture
Frontend: React, HTML5, CSS3, REST API Integration
Databases: MongoDB (NoSQL), PostgreSQL, MySQL (SQL), Indexing, Query Optimization
Cloud & DevOps: AWS (S3, SQS, SNS, Lambda, EKS, ECS), Docker, Kubernetes, Git, Azure DevOps, CI/CD
Testing & Tools: JUnit, xUnit, NUnit, Swagger/OpenAPI, Jira, Agile/Scrum

Experience

Verisk Analytics Jan 2024 – Present
Software Engineer II, Hyderabad, India

- Designed and built **RulesRunner**, a **Java/Spring Boot** microservice applying **OOP** and **CQRS** principles with **SQS** messaging, cutting client wait time from **3000ms to 500ms (83%)**.
- Built **Spring Boot** REST APIs handling **200K+ weekly requests**, applying core **data structures and algorithms** to error handling, input validation, and **Swagger/OpenAPI**-documented contracts.
- Engineered an import/export pipeline for **30+ data types** using **MongoDB (NoSQL)** and async processing, reducing transfer time by **38%** and defect rate by **25%**.
- Optimized **SQL** query performance and indexing on **PostgreSQL**/**MySQL**, improving API response time by **34%** via caching and connection pooling on hot-path endpoints.
- Collaborated in an **Agile/Scrum** team using **Git** for version control, participating in code reviews, sprint planning, and **Jira**-tracked delivery.
- Overhauled **CI/CD** pipelines in **Azure DevOps** with staged gates and automated testing, cutting deployment time by **50%** and build cycles by **33%**.
- Deployed containerized microservices on **AWS EKS** using **Docker** and **Kubernetes**, with **OAuth 2.0**/**JWT**-secured cross-service authorization via Kong Gateway.
- Migrated legacy services to modern async patterns, cutting technical debt by **55%** and improving runtime performance by **30%**; wrote **JUnit**/**xUnit** unit and integration tests.
- Authored technical design documents defining service boundaries, API contracts, and **SNS**-based event publishing patterns for distributed consumers.
- Instrumented services with **OpenTelemetry** tracing and **Splunk** dashboards, reducing mean time to diagnose production incidents.
- Reviewed pull requests and mentored interns on **OOP** design principles, **Git** branching workflows, and REST API best practices.

Projects

Expense Tracker – Java Spring Boot Microservices Aug 2023 – Dec 2023

- Built a full-stack expense tracker using **Java Spring Boot** with **5+ microservices**, async **Kafka** messaging, a **React** frontend, and **PostgreSQL**; containerized with **Docker**/**Kubernetes** and load-tested **1000+ transactions**.
- Designed relational schema with normalized tables and indexes on **PostgreSQL**, and integrated **Kong API Gateway** for request routing and authentication across services.

Internal Workflow Automation Agent 2025 – Present

- Built an internal automation agent using the **OpenAI API** with custom prompt engineering and orchestration logic to auto-create and route **Jira** tickets, reducing manual triage effort for the team.

Certifications

AWS Certified Cloud Practitioner Amazon Web Services — Oct 2024

Education

B.Tech in Computer Engineering – Vishwakarma Institute of Technology, Pune 2024 — CGPA: 8.8
