Sanskar Jain

Hyderabad, Telangana, India
9021620156 — sanskarjain0901@gmail.com — LinkedIn

Summary

Full-stack engineer with 2+ years of experience building enterprise-grade applications using **Java/J2EE**, **Spring Boot**, **Hibernate**, and modern front-end technologies (**React, Node.js**). Skilled in microservices architectures, containerised deployments with **Docker/Kubernetes**, and cloud platforms (**AWS**). Hands-on with both **RDBMS** (PostgreSQL, MySQL) and **NoSQL** (MongoDB) databases, event streaming with **Kafka**, and ETL pipelines. Practises TDD and ships production systems end-to-end in Agile teams.

Skills

Languages: Java, JavaScript, TypeScript, C#, Python, SQL
Backend: Spring Boot, Spring Framework, Hibernate/JPA, J2EE, REST APIs, SOAP, ASP.NET Core, Node.js
Frontend: React, Bootstrap, HTML5, CSS3, JavaScript (ES6+)
Cloud & DevOps: AWS (S3, SNS, SQS, EKS, ECS, Lambda), Docker, Kubernetes, Terraform, CI/CD
Databases: PostgreSQL, MySQL, Oracle, Snowflake, MongoDB, Cassandra, Redis
Streaming & ETL: Kafka, AWS Lambda, SNS/SQS, event-driven pipelines, data replication
Testing & Tools: TDD, Jest, Playwright, React Testing Library, JUnit, Mockito, Postman, Swagger, Jira, Git

Experience

Verisk Analytics Jan 2024 – Present
Software Engineer II, Hyderabad, India

- Architected **RulesRunner**, an event-driven microservice using **AWS SQS** that decoupled compliance processing from the client, reducing response latency from **3000ms to 500ms** (**83%**) and enabling independent horizontal scaling.
- Designed and maintained **Spring Boot** and **ASP.NET Core** RESTful APIs handling **200K+ weekly requests** with **Hibernate** ORM, structured error handling, input validation, and Swagger-documented contracts.
- Engineered **ETL and event-streaming pipelines** using **AWS SNS, Lambda, and S3** with idempotent processing, retry/backoff strategies, and dead-letter queues for reliable data replication across services.
- Built a scalable data import/export backend for **30+ entity types** using async processing, **S3** presigned URLs, and **MongoDB**, reducing data transfer time by **38%** and user-reported issues by **25%**.
- Improved API response time by **34%** via **Redis** caching, connection pooling, and targeted **SQL query optimisation** on hot-path endpoints.
- Reduced deployment time by **50%** by overhauling CI/CD pipelines with staged gates, parallel jobs, and automated test integration across **Docker**-containerised services deployed on **Kubernetes (EKS)**.
- Practised **TDD** with **JUnit** and **Mockito**; accelerated build/test cycle speed by **33%** through parallelised testing and build caching, enabling **10+ features shipped per quarter**.

Projects

Expense Tracker – Full-Stack Microservices Application Aug 2023 – Dec 2023

- Built a full-stack application using **Java Spring Boot** with **Hibernate** ORM, **React** frontend, **5+ microservices**, and async **Kafka** event streaming across bounded contexts.
- Containerised all services with **Docker**, orchestrated with **Kubernetes**; integrated **Kong API Gateway** for routing and load balancing; wrote comprehensive unit and integration tests with **JUnit** and **Jest**.
- Designed **ETL pipelines** for batch data ingestion from CSV/JSON sources into **PostgreSQL**, with schema validation, deduplication, and incremental load support using Spring Batch.

Real-Time Dashboard – React & Node.js Mar 2023 – May 2023

- Developed a responsive analytics dashboard using **React**, **Bootstrap**, and **Node.js** backend consuming RESTful APIs with WebSocket-based live data updates.
- Implemented **TDD** workflow using **Jest**, **Playwright**, and **React Testing Library**; achieved **90%+** code coverage across frontend components and E2E test suites.

Certifications

AWS Certified Cloud Practitioner Amazon Web Services — Oct 2024

Education

Bachelor of Technology in Computer Engineering 2024
Vishwakarma Institute of Technology, Pune (S.P.P.U) — CGPA: 8.8
Relevant Coursework: Data Structures, DBMS, Operating Systems, Distributed Systems, Web Technologies
