Sanskar Jain

Software Engineer | Python, SQL, ASP.NET | Technical Troubleshooting & IT Support
Hyderabad, Telangana, India | 9021620156 | sanskarjain0901@gmail.com | LinkedIn

Summary

Software Engineer with 2+ years of hands-on experience across Windows, Linux, and macOS, building and troubleshooting production systems. Proficient in Python, SQL, Java, and ASP.NET with proven ability to diagnose issues, deliver step-by-step guidance, and communicate solutions to cross-functional teams.

Key Skills

Languages: Python, SQL, C#, Java, ASP.NET Core, PHP (familiar), TypeScript
OS & Platforms: Windows, Linux (Ubuntu/CentOS), macOS, Docker, Kubernetes
Databases & Cloud: PostgreSQL, MySQL, MongoDB, Redis, AWS (S3, SNS, SQS, Lambda), CI/CD, Terraform
Tools & Strengths: Remote Desktop (RDP/SSH), Splunk, Postman, Swagger, Git, Jira; troubleshooting, root cause analysis, communication

Experience

Verisk Analytics Jan 2024 – Present
Software Engineer II Hyderabad, India

- Diagnosed and resolved production issues across **Windows and Linux** environments by analysing logs, tracing API failures, and providing **step-by-step technical guidance**, reducing mean time to resolution by **40%**.
- Built **Python** and **SQL** automation scripts for data validation, log parsing, and health-check monitoring, eliminating **15+ hours/week** of manual diagnostic effort.
- Developed **ASP.NET Core** REST APIs handling **200K+** weekly requests with structured error handling, input validation, and Swagger-documented contracts.
- Troubleshot user-reported data issues, reducing tickets by **25%**; improved API response time by **34%** via **Redis** caching and targeted **SQL query optimisation**.
- Cut technical debt by **55%** and boosted performance by **30%** migrating legacy services to **.NET 8**; built **Splunk** dashboards for **root cause analysis**.
- Used **remote desktop** (RDP/SSH) to access and troubleshoot services on cloud VMs across **Windows and Linux** agents.
- Slashed deployment time by **50%** by overhauling CI/CD pipelines with staged gates and automated testing across Windows and Linux build agents.
- Engineered scalable backend for import/export of **30+** data types using async processing, AWS S3, and MongoDB, reducing data transfer time by **38%**.

Projects

Expense Tracker – Microservices Application Aug 2023 – Dec 2023
Java, Spring Boot, Kafka, Docker, PostgreSQL

- Built expense tracker using **Java**/Spring Boot with **5+** microservices, async Kafka messaging, and **SQL**-based transaction management.
- Containerised services with Docker, reducing environment setup time by **60%**; **troubleshot** cross-service connectivity issues.

Stock Recommendation and Prediction Apr 2022 – Jun 2022
Python, MySQL, Streamlit, Yahoo Finance API

- Built stock advisory platform using **Python**, LSTM models, and **MySQL**; diagnosed API and pipeline issues across **Windows/Linux**.
- Integrated Yahoo Finance API and deployed via Streamlit; **troubleshot** environment-specific issues across OS platforms.

Certifications

AWS Certified Cloud Practitioner Amazon Web Services | Oct 2024

Education

B.Tech in Computer Engineering, Vishwakarma Institute of Technology, Pune (S.P.P.U) 2024 | 8.8 GPA
